Statewide Midstream Water Heating Program

Eligible Equipment

AutoHot® pumps are eligible for rebates through the California Statewide Midstream Water Heating Program. Rebates on pumps are available for existing commercial and multifamily master metered central heating plant properties. Rebates are not offered for new construction. The rebate amount will be determined based on the number of dwelling units or rooms the pump serves on the property. Rebate ranges can be found below:

HOW TO CALCULATE YOUR REBATE:**

Commercial

For example, if your commercial building has 155 units, your rebate would be calculated by multiplying 155 x $4.8 and would equal $744.00. Keep in mind, rebates are capped at the cost of the pump.

Multifamily

For example, if your existing multifamily building has 28 units, your rebate would be calculated by multiplying 28 x $18.72 and would equal $524.16. Rebates are capped at the cost of the pump.

Only commercial applications and multifamily master metered central heating plant customers are eligible.

**Invoice must show sales price per dwelling (=total product price/number of dwellings) and must be higher than rebate price per dwelling.
